

Andrew Bean

Systems Administrator & Full-Stack Developer

andrewbean34@gmail.com | (252) 414-4496 | Greenville, NC | andrewbean.dev | [LinkedIn](#) | [GitHub](#)
| ApexNode.host

PROFESSIONAL SUMMARY

Self-taught systems administrator and developer with production experience operating Linux infrastructure, customer hosting platforms, and web applications. Founder and operator of ApexNode.host, where I manage servers, DNS, deployments, billing, and customer support. Background in Java plugin development and freelance software delivery. Open to relocation.

WORK EXPERIENCE

ApexNode.host

Feb. 2024 to Present

Founder & Systems Administrator

Greenville, NC

Game hosting platform where clients deploy production servers in minutes. I own the full stack: Linux infrastructure, billing, DNS, deployments, monitoring, and the customer-facing web application.

- Built and maintain a customer-facing hosting platform on dedicated servers, VPS environments, backups, DNS, and automated deployment workflows.
- Develop the business website and admin tooling with **Next.js**, **TypeScript**, and **Tailwind CSS**.
- Configure and maintain web hosting, email systems, and domain infrastructure for production workloads.
- Monitor server uptime and performance; provide technical support and incident troubleshooting for hosted environments.
- Stack: Linux (Ubuntu), Nginx, Docker, Git/GitHub, REST APIs, DNS, VPS management.

Fiverr

Oct. 2018 to Feb. 2021

Freelance Software Developer

Remote

- Delivered custom game plugins and software add-ons for clients, gathering requirements, scoping work, and shipping on budget and deadline.
- Managed the full project lifecycle, including revisions, client communication, and post-delivery support.

Food Service Roles: aTavola Market Cafe, Plank Road Steak House, The Scullery

Jan. 2017 to Present

Line Cook / Grill Cook

Greenville & Farmville, NC

- Maintained consistent performance in high-volume, fast-paced environments; recognized for reliability, organization, and teamwork during peak operations.

EDUCATION

Pitt Community College

Jan. 2016 to Sep. 2019

Associate of Applied Science, Computer Programming

Winterville, NC
